Yaktrax have a unique, spikeless, patented coil design, unlike other products on the market. The **Yaktrax Pro** will instantly give you better traction, confidence and safety on packed snow or ice. Move about naturally with the same solid grip that you are accustomed to on dry surfaces. Walk or run as you normally would and experience stability on ice and snow like you have never felt before. Made with high strength, abrasion resistant 1.4 mm steel coils and heavy duty natural rubber material, the **Yaktrax Pro** easily conforms to the shape of your boot or shoe. With its patented SkidLock coil design, the **Yaktrax Pro** provides 360 degrees of traction on packed snow and ice and can be worn in temperatures as low as -41° Fahrenheit.

Comprised of the driest fiber on earth, the L/S Crew grabs moisture away from the skin with Lifa® Stay Dry Technology™ to keep the upper body warm and dry for all-season athletic use. The modern Lifa® striping highlights classic mountain style while low bulk cuffs and flat lock stitching reduces chaffing and eases movement for longer days outside.

HH®Dry™ Your second skin and the heart of our effective 3-Layer System™. It is a moisture super highway creating a dry layer next to the skin, keeping you comfortable during highly aerobic activities in a wide range of conditions.

The Ice Crew combines LIFA® T3 hollow fiber technology with merino wool to deliver exceptional warmth and moisture moving management at a minimal weight. Flat lock stitching and low bulk cuffs reduce chaffing during dynamic activities in cold environments.

HH®Warm™. This is the natural choice to stay warm in sub zero environments. This baselayer features two different layers in one. The inner Lifa® fibres ensure you stay dry in all conditions, while the outer, soft Merino wool adds warmth and comfort. This means you get extreme insulation and superior evacuation of moisture.

The key to staying warm is staying dry, and nothing keeps you drier than Helly Hansen baselayers - guaranteed. If you don't think our baselayers perform better than anything else you've used, send it back to us within 30 days and we'll give you a full refund.

Helly Hansen is the global leader and innovator of technical sports, leisure and work-wear—offers more than 500 individual product lines for men, women and children. It provides technical clothing for all seasons, developed and tested for the extremes. Windsurfers, sailors, cyclists, anglers, skiers, boarders, and climbers benefit from more than a century of fabric knowledge and technology.

Helly Hansen clothing is used to sail the Whitbread Round the World races, compete in the Olympics, climb the world's tallest mountains, trek over Arctic wastes, and tackle the roughest of the North Sea. It will keep you warm, dry and safe too—even though your aspirations might not be as high.
